P. 17, 28

Ensuring Polaris Engineered Accessories fit and work in sync with your machine is the most critical phase of testing and validation. With seamless integration, you can trust that any Polaris accessory you install will enhance your interaction beyond your expectations.

POLARIS
ENGINEERED

PRO PRO HEAVY DUTY SERIES **WINCHES**

INTEGRATED WINCH MOUNT & PRE-WIRED

Designated mounting points and pre-wired contactors ensure a perfect fit and the strongest place to attach the Polaris Engineered winch - the most dependable winch for your SPORTSMAN. With wiring built right into the vehicle, we made this the easiest SPORTSMAN winch ever made to install.

P. 10

GLACIER **PLOW SYSTEM**

INTEGRATED PLOW MOUNT

The attachment points for the Glacier Plow System are integrated right at the factory and feature an innovative drive-up and go installation process.

P. 36

SUPERIOR INTEGRATION

POLARIS ENGINEERED WINCHES

- ✓ Tested 1,200+ pulls at max load, it works when you need it to
- ✓ Built for winter, withstands -29°C temperatures
- ✓ **Pre-wired chassis**
Factory-installed wiring makes the controls simple to install. Mount the winch, connect the wires and trust that everything is routed safely, securely, and properly.
- ✓ **No need to cut panels**
- ✓ Sealed motor and heavy-duty gears operate fully submerged underwater
- ✓ Military tested and approved

TO LEARN MORE ABOUT
POLARIS ENGINEERED WINCHES,
SEE **P. 10**

Right from the factory, your vehicle is built to make essential accessories like winches and plows easy to use day-in and day-out. Mounting brackets are designed into the oversized factory bumper and wiring is routed securely and properly. When it comes to SPORTSMAN, Polaris Engineered Accessories make work easier so you can get more done.

POLARIS
ENGINEERED

GLACIER® PLOW SYSTEM

- ✓ Easily engage and disengage the plow system from your SPORTSMAN
- ✓ No loss of factory ground clearance when not plowing
- ✓ Don't have to crawl under the machine to release the plow blade from the vehicle
- ✓ No trimming of vehicle plastic required to mount plow or winch

REPLACEMENT PART

REPLACEMENT STEEL CABLE

- 1588 kg winch series - 15.2 m
- » 2878890

RECOVERY STRAP

- 5cm x 9.1 m (8165 kg)
- Comes with carry bag
- » 2884033

FEATURES & BENEFITS

ALL POLARIS ENGINEERED WINCHES COME WITH:

- ✓ INTEGRATED WIRING, MOUNT, PREASSEMBLED
- ✓ HOOK WITH STRAP
- ✓ CUT STEEL GEARS & SEALED DRIVETRAIN
- ✓ SEALED PERMANENT MAGNET MOTOR

Retrieve cable 5x as fast as standard mode on other Polaris winches. Get back to riding or complete your task quicker.

1. Set winch dial to N (Neutral) to manually pull the rope out and secure the hook to your anchor point
2. Set winch dial to L (Low) for maximum pulling power while winching your load
3. Set winch dial to H (High) for retrieving the rope 5x faster with Rapid Rope Recovery

Auto Stop technology protects and extends the life of your winch by automatically stopping the winch at the end of pull to prevent over-spooling. While plowing, it prevents the plow frame from bending by stopping the winch once the plow has been lifted.

With its lightweight, yet extremely strong, design and superior flexibility, this 15.2 m long synthetic rope is easy to handle and can stand up to any tough job.

This convenient remote operates your Polaris winch wirelessly from within 15.2 m of the vehicle. Operate your winch safely outside your vehicle while on the job site or trails.

PLOW SYSTEM

**TAKE COMMAND OF
CLEARING SNOW AND
MAKE QUICK WORK OF
EVEN THE HEAVIEST JOBS.**

THE POLARIS ENGINEERED ADVANTAGE

INSTALLATION

30 seconds: Drive up, clip in, lock down, and go – the integrated Polaris Engineered Glacier Plow System simplifies plowing.

CONVENIENCE

Lift and angle adjustments can be made from the driver's seat.

**ANGLE YOUR BLADE
RIGHT FROM YOUR SEAT
WITH THE GLACIERPRO
PLOW HYDRAULIC
ANGLE SYSTEM**

ROBUST FRAME

A plow system is only as strong as its frame, and Polaris Engineered plow frames have a wide frame to withstand the rigors of heavy plowing.

DURABLE BLADES

Available in strong stamped steel or corrosion-resistant poly materials, Polaris Engineered plow blades cover a large surface area for quick snow removal.

168 cm POLY BLADE

152 cm & 132 cm STEEL BLADE

HUNT & COOLERS

ALL-TERRAIN TRACTION

It's tough to make SPORTSMAN even more versatile than it already is. But with a set of Prospector Pro Tracks, you'll do just that. Tread through deep snow without concern.

Polaris-specific gearing provides 1:1 ratio to:

- Minimize track slip, providing better climbing ability and improved traction in deep snow
- Improve top speed over prior models by approximately 5%
- Reduce operating RPM for a quieter ride
- Improve driveline durability, which allows vehicle to run at a lower RPM, decreasing engine wear

Polaris exclusive optimized hub geometry that minimizes feedback and eases steering effort

Lightweight design provides for better flotation, eases steering effort, and provides better vehicle control

New front dual stabilizer for improved stability

Flexible lug design provides the highest level of deep snow performance by lifting up in deep snow as opposed to digging down

KNOW YOUR TERRAIN

- Tread patterns optimized for extreme traction
- Ideal for both hard pack and loose trail

- Flexible "grippy" tread
- Aggressive side bite

- Provides traction and durability
- Built to perform in hard sand, jagged rocks or any other extreme terrain

SUPERIOR PERFORMANCE & DURABILITY

PRO ARMOR

LIFELONG PERFORMANCE

- Every tyre is designed and constructed with longevity in mind
- 3,000+ mile rated (4,828 kilometers)

PREMIUM PROTECTION

- Pro Armor makes tyres with extra protection exactly where it's needed most – the sidewall
- Triple-belted sidewalls keep your tyres more resistant so you can keep going

TOUGH TYRES

- Higher ply ratings mean added protection
- Pro Armor builds 8 or 10-ply rated tyres for higher puncture-resistance

KOLPIN STRONGHOLD SYSTEM

Polaris is proud to partner with Kolpin Outdoors, an industry leader in off-road accessories and the premier name in gun boots and mounts. If you need to secure a firearm while riding, simply attach the auto-latch mount and choose your Gun Boot.

IDEAL FOR SECURE TRANSPORT OF SCOPED RIFLES AND SHOTGUNS

STEP 1 CHOOSE YOUR MOUNT

STRONGHOLD AUTO-LATCH MOUNT

- The auto-latching design provides quick and secure Kolpin Stronghold product attachment
- Bracket is made from rugged high impact, reinforced nylon and coated steel with precision angle adjustment for a custom fit
- For use with the Kolpin Stronghold line of products (sold separately)

» 2882272

SPORTSMAN 850/1000 '17-22

Does not fit with Ultimate Series – Body Armor (2882090)

STRONGHOLD AUTO-LATCH MOUNT

- The Auto-latching design provides quick and secure Kolpin Stronghold product attachment
- Bracket is made from rugged high impact, reinforced nylon and coated steel with precision angle adjustment for a custom fit
- For use with the Kolpin Stronghold line of products (sold separately)

» 2884846

SPORTSMAN 450/570 '21-22

STEP 2 CHOOSE YOUR BOOT

GUN BOOT L

- 132.1 cm L x 12.1 cm W x 23.5 cm H

- Requires Auto-Latch Mount 2882272 or 2884846 to mount to vehicle

» 2882426

SPORTSMAN 850/1000 '17-22,
SPORTSMAN 450/570 '14-22

Never transport a loaded firearm. Verify firearm is unloaded prior to mounting. Please refer to local laws and regulations regarding the requirements for the legal transport of firearms.

GUN BOOT XL

- Lockable and TSA Approved
- Includes padded, zippered internal protective liner
- 132.1 cm L x 9.5 cm W x 26.6 cm H
- Requires Auto-Latch Mount 2882272 or 2884846 to mount to vehicle

MAINTENANCE TIP

BREAK-IN PERIOD

The break-in period for your new SPORTSMAN is the first 25 hours of operation, or the time it takes to use the first two tanks of fuel. No single action on your part is as important as a proper break-in period. Careful treatment of a new engine will result in more efficient performance and longer life for the engine.

NOTICE: Excessive heat build-up during the first three hours of operation will damage close-fitted engine parts. Do not operate at full throttle or high speeds for extended periods during the first three hours of use.

BATTERY

To ensure a battery maintains its level of charge when unused for extended periods of time or during freezing weather, the battery should be connected to a suitable battery charger. Be sure to check for corrosion from the terminals to the ends of the cables.

BRAKE PADS

Maintaining and/or replacing brakes are critical to the safety and functionality of a vehicle. Brake pads should be checked for wear and oil or grease (petroleum products) contamination and brake discs should be checked for cracks, excessive corrosion or warping.

HALF SHAFT

Check for tears and punctures in the boot, which can lead to CV joint wear that can contribute to axle failure.

AIR FILTER

A clogged air filter can restrict air flow to the engine leading to reduced engine performance, engine life or catastrophic failure.

DRIVE BELT

Polaris Engineered belts deliver unmatched performance for your off-road vehicle. Developed and tested on all our engines for all environments and conditions. Check your belt for delamination, hour glassing and glazing.

BREAK-IN PERIOD

- Use lower gear (if available) while varying speeds and avoid wide open throttle for 8-16 km
- If no low gear is available, vary at moderate speeds while avoiding wide open throttle for 80 km

OUR INVESTMENT

- 32,187 km of field testing
- Thousands of dyno hours
- 18+ months of development (13,000+ design hours) per belt
- 1,500+ vehicle validation hours
- Collaboration with powertrain and clutch engineers

YOUR ADVANTAGE

- No clutch recalibration
- Less wear and tear due to heat
- Ensure maximum vehicle performance
- More time riding, less time wrenching
- Produced in collaboration with powertrain and clutch engineers to ensure a perfect fit, maximum performance and ultimate durability

OIL FILTER

Change oil filters with every oil change to provide the best engine protection and keep the engine operating at peak performance.

SPECIFIC NEEDS, SPECIFIC OILS

Polaris invests millions in engine development, and part of that investment is making sure its lubricants—critical to engine performance—are the right formula for your specific engine. The amount of testing data and engineering resources used in developing Polaris lubricants would overwhelm an aftermarket company. Therefore, the aftermarket must spec an oil to an industry-wide standard that must account for a variety of operating parameters.

PS-4 is designed specifically for Polaris 4-cycle engines and has high film strength and wear protection under extreme loads and temperatures. Exclusive anti-wear additives protect engine parts with extra rust and corrosion protection.

PS-4 SYNTHETIC PERFORMANCE OIL

- PS-4 is optimal for ambient operating temperatures of -40° C to 40° C

1L • 502484
4L • 502485

POLARIS

ENGINEERED PARTS & LUBRICANTS

FOR THE LIFE OF YOUR RIDE ONLY THE BEST WILL DO

To create the best oil for any terrain, we invest in rigorous testing to ensure our oil delivers the consistency and performance you demand. The results are Polaris Engineered Lubricants that are tested and perfected to deliver excellent total engine protection for the life of your ride.

WHAT COUNTS IN OIL TESTING:

1. Does it protect the engine at high temperatures?
2. Does it keep the engine free from carbon and buildup?
3. Does the oil hold its viscosity over time?

ENGINE CHECKPOINTS

When evaluating an engine oil and its ability to protect and preserve the engine's power output and lifespan, Polaris engineers focus on key areas within the engine, some of the most critical ones include:

RING LANDS: Poor oxidative performance can lead to carbon and varnish buildup, which results in poor ring seal and loss of power, combustion blow by and fuel dilution of the oil.

PISTON RINGS: During the combustion process, extreme pressures are placed on the top ring, forcing it outward toward the cylinder wall, sealing the combustion chamber. With so much force applied, poor oil film strength between the top ring and the cylinder wall can lead to cylinder wear and loss of power.

ROD BEARINGS: Engine bearings ride on an extremely thin hydrodynamic film of oil. Poor oil film strength or using an oil with a thinner viscosity, can lead to premature bearing wear or even engine failure. Using an oil with high film strength and a strong viscosity, like PS-4 full synthetic, will extend the service life of your engine.

CAMSHAFT: Direct Acting Overhead Camshafts are used on many Polaris Prostar Engines. In this application the camshaft pushes directly on the valve, creating very high contact pressures compared to other camshaft configurations. These forces are so great that inferior oil can break down and be forced out of the contact area leading to increased wear. PS-4 full synthetic additives are specifically designed to provide wear protection against this.

ENGINEERED TO MAXIMISE THE LIFE OF YOUR RIDE

All Polaris fluids—from anti-freeze to brake fluid—are developed for your vehicle. Trust the only fluids perfectly engineered for your needs.

DOT 4 BRAKE FLUID

Polaris DOT 4 Brake Fluid is a high-quality brake fluid designed for use in Polaris hydraulic brakes. Superior high-temp characteristics plus anti-corrosive additives extend the life of brake system components and provide consistent, positive braking.

» 250 ml • 502526

ANTI-FREEZE

Polaris Extended Life Coolant contains organic acid technologies to prevent corrosion on metal components, eliminate scaling, and maximise cooling system performance.

» 1 L • 502566

» 25 L • 502567

» 206 L • 502568

AGL

A proprietary blend of additives designed to optimize Polaris' ORV transmission life. Extreme pressure additives protect gears, drive chain, and bearings from scoring and wear. Unlike typical gear case oils, AGL's unique viscosity range allows instant flow and film protection in extreme cold or high heat environments.

HD **HEAVY DUTY PARTS**

All Polaris parts are developed and tested to help you get the most out of your ride. We're taking the passion of our riders, workers and outdoor enthusiasts to the next level with HD Parts.

Engineered and designed for:

- Greater durability
- Enhanced performance
- Greater wear and tear capabilities
- All weather conditions

NEW OIL FILTERS

The advanced synthetic material built into these filters offers the highest debris holding capacity, maintains oil flow and maximises performance.

OE	HD <small>HEAVY DUTY PARTS</small>
2520799	2522485
2540086	2522498

WHEEL BEARINGS

Fully sealed for added protection against intrusions. Made of a higher grade steel for extended life in extreme conditions.

LOCATION	OE	HD <small>HEAVY DUTY PARTS</small>

PARTS
AVAILABLE!

FOR THE LIFE OF YOUR RIDE

Maintenance is the key to keeping your Polaris off-road vehicle performing at its peak. Items like belts, lubricants, and batteries represent only a few of these critical items engineered specifically by Polaris.

POLARIS ENGINEERED DRIVE BELTS

TESTED, PERFECTED

We test each belt on the intended vehicle – we don't just try to make an existing belt "just work".

– Amery Kuhl, Polaris CVT System Engineer

OUR INVESTMENT

- 32,187 km of field testing
- Thousands of dyno hours
- 18+ months of development (3,000+ design hours) per belt
- 1,200+ vehicle validation hours
- Collaboration with powertrain & clutch engineers

YOUR ADVANTAGE

- No clutch recalibration
- Less wear & tear due to heat
- Ensure maximum performance of your vehicle
- More time out riding, less time wrenching

**OUR INVESTMENTS ENSURE POLARIS BELTS
OUTPERFORM YOUR EXPECTATIONS.**

CV BOOT REPAIR KIT*

FIX ON THE GO | TEMPORARY COVERAGE

- A quick trail-side fix to increase trail time
- The flexible and durable boot material expands "over a cone tool for CV boot repairs, without disassembling CV axles
- Universal fit - works as a temporary fix for most powersports axles
- All components fit inside the cone, and a cover is provided for compact durable storage
- Easily fits in a cargo box, attached to the roll cage, in the glovebox or many other storage locations

Items shown are contained inside cone

ATV CV BOOT REPAIR KIT

Kit includes the following items:

- (1) Expandable CV Boot
 - (1) Reusable Cone Tool
 - (2) CV Boot Clamps
 - (1) Tube of Silicone Lube
 - (1) Grease Packet
 - (1) Cone Cover
- » 2830528

ATV TRAIL BOOT ONLY

» 2830529

UTV

- » CV REPAIR KIT 2830526
- » TRAIL BOOT ONLY 2830527

HOW TO INSTALL

Remove wheel and axle nut.

Remove brake caliper, hub, tie rod and upper and lower ball joints.

Remove old boot and clean joint.

Spread silicone lube on entire cone tool. Slide boot over cone tool, large end first. See package for outer boot instructions.

Empty the bag of grease into the CV joint/boot, clean sealing points and install clamps.

Reassemble tie rod, ball joints, brake caliper, axle nut, tyre and wheel.

Refer to your service manual for further instructions and torque specifications.

*Designed for temporary CV boot repair. Purchase the OEM CV Boot for a permanent repair.

KEEP IT CLEAN

CLEAN

ALL-PURPOSE CLEANER

- Professional cleaner, which is formulated with a low pH-value. The product spreads well on surfaces and adheres on them for effective cleaning action. Perfectly compatible with rubber, plastic and painted surfaces. The formulation is biodegradable.

» 500 ml • 502309

SHINE

INSTANT SHINE & DETAILER

- The INSTANT SHINE AND DETAILER is developed for cleaning action without water. Removes insects, dust and dirt with almost no effort. Applicable for plastics, visors, windscreens, paint and metal. The wipe and shine formulation makes surfaces shine, works water repellent and also has an antistatic effect. Perfect for customers living in urban areas with no access to water, for bike trips or showroom bikes.
